SUMMARY

Enthusiastic and reliable full-stack developer with a knack for solving complex problems. I blend technical expertise with usability, focusing on crafting seamless digital experiences. While excelling in backend development, I appreciate the holistic approach to building outstanding web applications. With a versatile skill set, I bring ideas to life, delivering fully functional, feature-rich systems. As a mature team player, I thrive in challenging situations, adapt quickly to changing environments, and consistently meet strict deadlines.

EXPERIENCE

Team Lead & Senior Full-Stack Developer 08/2023 - 12/2023
Aerion Technologies Preston, Australia

- Collaborated on a survey-based React application, seamlessly integrating advanced chat features for an enriched user experience.
- Enhanced React App in Capacitor, improving code clarity. Integrated custom payments (Android/iOS) and added Australian Bank statement system for enhanced functionality.
- Worked with GPT-4 Model for an AI-based application for project managers, automating and generating feature-based JIRA ticket and story creation.

https://aerion.com.au/

Team Lead & Senior Full-Stack Developer 10/2021 - 08/2023
ESR Tech/Assabet Technologies Kansas, USA

- Revamped and enhanced code for a wide range of client and internal projects, prioritizing modernity, performance, and maintainability.
- Successfully spearheaded the development and deployment of feature-rich web applications, including OtisHealth, Jeweltrek, Esrtech.

esrtech.io

Senior Frontend Developer (Freelance) 05/2021 - 11/2021
Neptiaan Enterprises(ORG0) USA

- Collaborated closely with the product team and stakeholders, translating requirements into actionable frontend solutions that aligned with the project vision.
- Worked with Crypto Blockchain with Kilt

https://www.orgo.earth/

Full-Stack Developer 02/2021 - 10/2021
EB Pearls Sydney, Australia

- Played a pivotal role in architecting robust SaaS solutions, providing valuable guidance and mentorship to team members in the development of dynamic applications.
- Contributed to the development and deployment of engaging web apps, including FlipPay, Halo, and internal projects, with a focus on interactive features and user-centric design.

https://ebpearls.com.au/

Full-Stack Developer 08/2020 - 01/2021
Wegsoft Technologies Bangalore, India

- Collaborated with cross-functional teams to gather requirements and translate them into actionable development tasks. Implemented advanced features for restaurant solutions, including order management, inventory tracking, table reservations, and reporting analytics.
- Continuously researched emerging technologies and trends in the restaurant management domain, incorporating them into the development process to improve system efficiency and user experience.
